NEW DELHI

MINISTER FOR HOME
11 AUG 1965
GOVERNMENT OF MADRAS

August 8, 1965.

S.

M_E_S_S_A_G_E

Agriculture is the kingpin of our developmental effort and its success, to a large extent, will depend on the establishment of an effective and fruitful liaison between the peasantry and persons trained in the methods of modern agricultural science. I send my best wishes for the new Agricultural College at Othakadai and hope that the students coming out of the institution will fully appreciate that their task and opportunity lie in the villages.

Lal Bahadur
